# Library Professional Development and Enrichment Program

**Make the best of the Interim term and spend  
some time on your professional and personal  
development.**

Join us for the seminar “A Guide to a Problem Patron” with Dennis Guion and learn some time-proven techniques for handling difficult people and complicated situations.

Spend a lunch break with your colleagues and enjoy the “Time Management” presentation by Vickey Baggott that will not only tickle your funny bone but will also help you organize yourself before the new semester strikes.

Come to the “Tame Your PC” workshop with Alla Zakharova and get some useful tips on whipping your computer into shape.
